1. Applicant's election with traverse of claims 1-56 in the reply filed on 4-15-06 is acknowledged. The traversal is on the ground(s) that the particulars of the subcombination are necessary. This is not found persuasive because there is no requirement in claim 1 for use of programmed software parameters to provide two way communication, as is required for the subcombination in claim 57. Likewise, there is no requirement for claim 1 for recognition of a controller signal as a simplified BAS alarm as is required for the subcombination in claim 67.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 1-56 are allowed.

3. The Examiner attempted to contact applicant's representative during the weeks of June 9-15 and June 16-22 to see if applicant wished to cancel the non-elected claims to place case in condition for allowance, but no response has been received at the time of preparation of this Office action. An action is necessary since this is a two month amended case.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ehlers, Actor, Combs, Petite (998), Thomas, Petite (767) and Sandelman disclose device management systems.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brent A Swarthout whose telephone number is 571-272-2979. The examiner can normally be reached on M-F from 6:30 to 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mike Horabik, can be reached on 571-272-3068. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
